

TITAN

Advantages

- **Triple chrome plated finish** requires virtually no maintenance to retain its bright, mirror finish. No polishing, buffing or chemical washing required.
- Manufactured from **heavy duty steel** and engineered to provide **superior protection** for you and your investment.
- **Bolt-together design** saves you money and downtime by allowing you to replace only the damaged parts in the event of a collision.
- Our foot-operated, spring-assisted lowering mechanism is the **easiest** in the business! Anyone can lower and raise the Titan without the need of bending over or spending time with screw fasteners.
- There's no need to replace your existing bumper, the Titan is **compatible** with your original equipment. Your original, factory-designed bumper and tow-pin stay with your truck since they offer the best available. Once you have added a Titan truck guard to this equation - you are prepared to meet whatever the road throws at you.
- Simple installation
- One-year limited warranty
- Pre-fitted to accept light brackets
- Rattle-free design
- Reduced truck down-time
- Modular design
